E-LIB20X3

Patron Self-Service

BayScan Technologies E-LIB20X3 is the perfect solution to every libraries patron self-service needs. The E-LIB20X3 can be installed into your existing furniture or added to our table-top and stand-alone kiosk models.

Its small footprint and ease of use are just two of the reasons the E-LIB20X3 is great for any library.

Powered by Librid3 software, there are more than 400 installations worldwide. Librid3 offers great features such as: check-in/check-out, renewals, holds, fines, account information, off-line functionality as well as several e-mail options (e-mail, print, no receipt).

Librid3 software includes a built-in, centralized management system that allows staff to adjust settings and features from one location. The reporting tool gives the user statistics and error messages in real time.
